

Linn Benton Community College - OTA Program

OTA 260 or OTA 270 - Level II Fieldwork

**Project Assignment**

**Objective:** To demonstrate the student's clinical reasoning and clinical competency in the Level II fieldwork experience.

**Description:** A 1 – 2 page project report using 11-point Calibri font, double-spacing, and 1-inch margins. **Each of the 5 headings should be underlined and bolded (see example below).**

**\*\*NOTE:** You must submit a proposal to the Academic Fieldwork Coordinator **AND** receive approval prior to beginning the project. Final Project submission must contain **photographs** of the finished project. Attach a copy of the original proposal to the end of the project report.

The project report must be submitted to the dropbox on or before **7:00 pm, Monday, March 7, 2016.**

**Required Elements:**

- 1) **Project Proposal**---one typed page describing the specifics of the project and how it will benefit the patients/clients and/or therapy staff of the particular setting you are in. This needs to be

**e-mailed** to the AFWC for approval. DO NOT begin the project until you have approval. If you do not hear back from the AFWC within 48 hours, check in to be sure the e-mail was received.

(1 page). **Please be sure to attach a copy of the original proposal to the end of the project report.**

- 2) **Project Report** --- This is a more in-depth description of how the project can help to meet the patients/clients and/or therapy staff's **goals**. Include why you believe this project will be effective in addressing the patients/clients and/or therapy staff's needs **in this particular setting**. It should include your methods for grading the use of the project (**at least two ideas for grading the activity: one idea for grading up/one idea for grading down**). [This can be similar to class projects in the past, you can use bullet points for each point you are making]

*(The entire report will be 2-3 pages, this section: 2-3 paragraphs in either format, narrative or bulleted)*

- 3) **Therapeutic use of self** --- reflect on how your personal clinical reasoning model helped in designing this project. *(2-3 sentences)*
  
- 4) **Other Settings**--- describe how another OT or COTA could use this project in **one** other setting—other than the setting you designed it for. *(2-3 Sentences)*
  
- 5) **OTA role in Your Setting** --- reflect on how your project represents what occupational therapy has to offer clients in the setting you created it for. *(1-2 paragraphs)*
